

## INFORMATION AND INSTRUCTIONS CONCERNING INTERNATIONAL TRANSIT INSURANCE

1. This insurance programme is especially designed to insure household goods, personal effects, antiques, fine arts, automobiles, etc. for international transit. Coverage is All Risks, or Restricted Conditions door-to-door with exclusions or conditions.

2. This protection is stated value/new replacement cost coverage. You determine the new replacement cost of all your possessions at destination and declare these values on a per item basis. (Please see Item 1 of The General Conditions.) If your effects sustain a loss and they cannot be repaired, you are entitled to the value declared provided the effects cannot be replaced with others of similar kind and quality for a lesser sum.

### 3. IMPORTANT NOTES ON VALUATION

Whilst every effort is made to ensure that your effects will arrive at the destination in good order and condition the under mentioned points are brought to your attention by way of guidance in arranging the insurance cover and thereby facilitating the processing of any claim which may arise.

3.1 The items printed on the Application for Insurance or Proposal Form you are requested to complete are a comprehensive list of property usually encountered in overseas moves, but you may have goods which are not detailed in the Application, or you may have doubt in which section certain items are to be entered. In such instances you should prepare a separate list to add/attach to the Application or, if you prefer, you may compile a detailed valued inventory.

In terms of the Policy Conditions, you are required to insure your entire consignment. Any item which you leave off the list will not be covered by insurance.

Please note that giving only a total value for a category (e.g. lounge, kitchen) is not enough. Showing individual values makes settlement far easier in the event of a claim. Also, where items are listed together, all will be assessed as being of equal value unless individual values are shown.

3.2 With the exception of motor vehicles, your effects for the purpose of insurance should be valued at the NEW REPLACEMENT RETAIL COST AT DESTINATION. **(Under-valuation will result in you not receiving full compensation for losses which arise as a consequence of transit damage).** Our insurers are not unreasonable when it is apparent that an effort has been made to provide reasonably accurate valuations at destination prices.

3.3 Motor vehicles should be valued at the sound market value at destination: that is to say the value for which the same, or similar, vehicle could be purchased in an undamaged condition. Again under valuation/insurance will result in "the application of average".

3.4 The above demonstrates the importance of accurately listing and valuing your effects to be shipped. With this in mind you will understand it is not in your best interests to leave the completion of the Application and/or valued inventory to someone else.

4. Note that there are certain conditions and exclusions in this coverage. The precise wording is provided on the final page of this application. Please make yourself familiar with these conditions before you complete your application (e.g. owner packed items). Should you have any queries kindly contact your insurance administrator on 021 818 3200.

5. Confirmation of insurance will be provided to you once we have received your completed application. Please review it carefully when it is received.

**Questions regarding the insurance coverage should be directed to the insurance administrator.**
